DESCRIPTIONS OF CENSUS DIVISIONS

MANITOBA

Since there are no fixed political divisions in Manitoba corresponding to the counties of Eastern Canada, this province has been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in the population disclosed by the censuses.

Areas with fixed boundaries are used as a basis for the compilation of the census rather than electoral districts, since the areas of the electoral districts are subject to change after each redistribution, thus making it impossible to compare one census with another for areas smaller than a province.

The census divisions in this province are constituted as follows:

DESCRIPTION DES DIVISIONS DE RECENSEMENT

MANITOBA

Comme il n'y a pas au Manitoba de divisions politiques fixes qui correspondent aux comtés de l'Est du Canada, cette province a été divisée, pour fins statistiques, en divisions et subdivisions de recensement. Ces divisions de recensement ont été organisées de telle façon que, à mesure que la population augmente elles puissent être subdivisées sans détruire les moyens de comparer les variations de la population révélées par les recensements.

Les régions dont les limites sont fixes servent de base aux compilations de recensement plutôt que les districts électoraux parce que l'étendue de ceux-ci reste sujette à changement après chaque remaniement de la carte électorale, ce qui rend toute comparaison impossible entre un recensement et un autre pour les régions plus petites qu'une province.

Les divisions de recensement de cette province sont ainsi constituées:

DESCRIPTIONS OF CENSUS DIVISIONS

SASKATCHEWAN

Since there are no fixed political divisions in Saskatchewan corresponding to the counties of Eastern Canada, this province has been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in the population disclosed by the censuses.

Areas with fixed boundaries are used as a basis for the compilation of the census rather than electoral districts, since the areas of the electoral districts are subject to change after each redistribution, thus making it impossible to compare one census with another for areas smaller than a province.

The census divisions in this province are constituted as follows:

DESCRIPTION DES DIVISIONS DE RECENSEMENT

SASKATCHEWAN

Comme il n'y a pas en Saskatchewan de divisions politiques fixes qui correspondent aux comtés de l'Est du Canada, cette province a été divisée, pour fins statistiques, en divisions et subdivisions de recensement. Ces divisions de recensement ont été organisées de telle façon que, à mesure que la population augmente, elles puissent être subdivisées sans détruire les moyens de comparer les variations de la population révélées par les recensements.

Les régions dont les limites sont fixes servent de base aux compilations de recensement plutôt que les districts électoraux parce que l'étendue de ceux-ci reste sujette à changement après chaque remaniement de la carte électorale, ce qui rend toute comparaison impossible entre un recensement et un autre pour les régions plus petites qu'une province.

Les divisions de recensement de cette province sont ainsi constituées:

DESCRIPTIONS OF CENSUS DIVISIONS

ALBERTA

Since there are no fixed political divisions in Alberta corresponding to the counties of Eastern Canada, this province has been divided for statistical purposes into census divisions and subdivisions. These census divisions have been so laid out that as population increases, they may be subdivided without destroying the means of comparing the variations in the population disclosed by the censuses.

Areas with fixed boundaries are used as a basis for the compilation of the census rather than electoral districts, since the areas of the electoral districts are subject to change after each redistribution, thus making it impossible to compare one census with another for areas smaller than a province.

The census divisions in this province are constituted as follows:

Division No. 1 comprises the municipalities of Burlington(2), Warner(4), Forty Mile(12), Bow Island(13), Eureka(14); Improvement Districts 1, 3, 11, 15(pt.); Cities: Medicine Hat; Towns: Bow Island, Irvine, Taber; Villages: Burdett, Milk River, Warner.

DESCRIPTION DES DIVISIONS DE RECENSEMENT

ALBERTA

Comme il n'y a pas en Alberta de divisions politiques fixes qui correspondent aux comtés de l'Est du Canada, cette province a été divisée, pour fins statistiques, en divisions et subdivisions de recensement. Ces divisions de recensement ont été organisées de telle façon que, à mesure que la population augmente, elles puissent être subdivisées sans détruire les moyens de comparer les variations de la population révélées par les recensements.

Les régions dont les limites sont fixes servent de base aux compilations de recensement plutôt que les districts électoraux parce que l'étendue de ceux-ci reste sujette à changement après chaque remaniement de la carte électorale, ce qui rend toute comparaison impossible entre un recensement et un autre pour les régions plus petites qu'une province.

Les divisions de recensement de cette province sont ainsi constituées:
